

LifeNet Health Human Hepatocyte Media

Enhance the thawing, plating, and culture of primary human hepatocytes

Why Choose LifeNet Health Media?

- ✓ **High Quality**
Optimizes health and functionality of hepatocytes.
- ✓ **Easy to Use**
Convenient volumes and streamlined protocol.
- ✓ **Single Supplement Aliquot**
Components are premixed.
- ✓ **Extended Shelf-life**
Proven 18-month stability.
- ✓ **Antibiotic Free**
Increases investigator control.
- ✓ **Excellent Service**
Guided technical support from industry leaders.
- ✓ **Suitable for Various Assays**
Metabolic clearance, induction, transporter, high content imaging and more.

Media Portfolio

Human Hepatocyte Thawing Medium

Ready-to-use. Formulated to maximize the yield and viability of hepatocytes following cryopreservation.

Human Hepatocyte Plating Medium

Serum-containing DMEM-based medium optimized for the attachment of hepatocytes to cultureware.

Human Hepatocyte Plating Medium Supplement

Premixed solution containing pre-qualified serum, sodium pyruvate, dexamethasone, and insulin designed to supplement 250mL of Human Hepatocyte Plating Medium.

Human Hepatocyte Culture Medium

Serum-free WEM-based medium optimized for the maintenance of hepatocytes in culture.

Human Hepatocyte Culture Medium Supplement

Premixed solution containing ITS+ and dexamethasone designed to supplement 500mL of Human Hepatocyte Culture Medium.

LifeNet Health Human Hepatocyte Media

Enhance the thawing, plating, and culture of primary human hepatocytes

Product Description	Product Code	Volume (mL)	Shelf-Life (Mo)	Storage (°C)
Human Hepatocyte Thawing Medium	MED-HHTM4C-50ML	50	12	2 to 8
Human Hepatocyte Plating Medium	MED-HHPM-250ML	250	18	2 to 8
Human Hepatocyte Culture Medium	MED-HHCM-500ML	500	18	2 to 8
Human Hepatocyte Plating Medium Supplement	MED-HHPMS-15ML	15	18	-10 to -30
Human Hepatocyte Culture Medium Supplement	MED-HHCMS-5ML	5	18	-10 to -30
